

Current Hygiene Regulations for Patients and Visitors

Keep a distance of
at least 1.5 m.

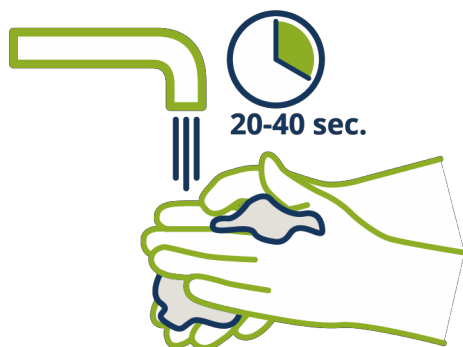

Cough or sneeze into your
elbow or into a tissue.

You must always wear a mask
in the hospital.

Disinfect your hands before and
after entering examination or
patient rooms and after contact
with any secretions.

Wash your hands regularly,
thoroughly and for a sufficient
amount of time, using soap
and water.

Ensure that you keep at least
1.5 m distance in the waiting
areas at all times.
